JENNINGS GETS ARMY-NAVY "E" AWARD

CHICAGO - O. D. Jennings & Co., noted coin machines manufacturers, were honored on Thursday, December 14, with the Army & Navy "E" Award for the excellence of their war production. Jennings thereby takes its place with other coinfirms who have also been so honored.

Mr. O.D. Jennings in accepting the award stated, "I cannot think of three more significant or all-inclusive words than these: When you can overcome obstacles, you can do anything. Americans will win this war because Americans are able to overcome obstacles."

A grand reception was held at the factory. Army and Navy officials took part in the ceremonies. A letter from Robert P. Patterson, Secretary of War, commending the firm, was read. E.A. Terhune, Jennings' Vice-President, acted as Master of Ceremonies for this affair.

ROCHESTER OPS ON LICENSE HOT SEAT

ROCHESTER, N.Y. - Ops in this city are sitting on a hot seat because of the $100.00 Federal license fee being demanded of them for pin games. Ops claim Treasury Dept. investigators found payoffs being made on pins and therefore demanded $100.00 gaming machines license.

Ops have been happy to comply with this request. Now they fear what City Fathers may think. At present pins are operating here under $6. per year license fee as "games of skill". Coinmen afraid that if city learns of "gaming machine" licenses they are purchasing from Uncle Sam, it may change mind about pins being "games of skill".

Most of this city's ops have already paid $100. Federal without squalking. Now wonder if they did the wrong thing.

TENNESEE OPS FEAR STATE LICENSE BOOST

MEMPHIS, TENN. - Coinmen of this city are of the belief they will soon be facing vigorous attempt at a severe increase in coin machines license fees when the state legislature convenes in Nashville in about 20 days. Grapevine news is to the effect legislators are preparing increase in phono and pin licenses. (Note story of the biting tax bug in "Talking Out Loud" this issue.)

MINNESOTA OPS ASS'N MAIL "COINTOONS"

MINNEAPOLIS, MINN. - Tom Crosby who heads Minnesota Amusement Games Association, Inc., this city, asked The Cash Box to mail 500 copies of the "Cointoon" which appeared in Dec. 19 issue and also 500 copies of complete "Coin Machines Merry-Go-Round" of same issue.

Organization found both "Cointoon" and editorial section devoted to "Public Relations Bureau" much to its liking. Every member and non-member will receive copy.

AOA BANQUET AT LATIN QUARTER JAN. 16.

NEW YORK - Arcade Owners Association will hold annual dinner, dance and entertainment this January 16, 1945 at famed Latin Quarter nitespot this city. Large crowd of arcade men and friends expected to attend. New Latin Quarter show considered the gayest this noted club ever produced.

All nation's arcade men invited to attend. This gala gathering to start AOA's New Year plans off with bang. Dinner will start at 6:30 P.M. promptly.

BRITISH COINMEN PLAN QUICK U.S. TRIPS

LONDON, ENGLAND - News just received from noted British firm to effect all English Coinmen planning immediate trips to U.S. to obtain equipment, moment government will grant permission for trip.

Arcades have become greatest moneymakers, according to report. Soldiers and sailors giving them tremendous play. More arcades in operation than ever before in history. Some expected to fade out, after war, especially those located in army service areas. Lack of phono needles and many parts biggest operating headache. Orders already placed for used equipment with many firm in U.S., report claims. Interst in music very high.

CHRISTMAS, 1944

There's something about Christmas that usually fills the spirit to overflowing with good will toward all men. The members of this industry, as well as the members of all other industries in the nation, will enjoy this Christmas as men who have seen a job well done. The spirit of good will is in the air. The hope that the coming New Year will bring good health, great comfort, ease of mind and soul - AND VICTORY - is cherished by all.

All the many confusing problems that crush down upon the average man are more or less forgotten - pushed from the mind - for this great holiday. The surprised and cheerful cries of children seeing their gifts. The peace of clean, white snow. The tang of clear, sharp air. The warmth of a fireplace. The relaxation that comes after a good dinner. A warming drink or two. Friends calling with good wishes and gifts. All these, and many more, are the cherished symbols of this one time during the year when men can look out upon all the world with that grandiose spirit of good will.

Yet, this Christmas is saddened for many - whose boys are dug deep into fox holes, whose lives hang by a delicate hair, whose thoughts are of home and all the good things that make Christmas - so grand. Perhaps it is the wish of those boys and girls in uniform that the folks back home enjoy Christmas, just as if they were there with them - so that they can believe - that the ugly work they have to do is being done to preserve the grandness and goodness of this holiday spirit. This is for the best. This is what most of the boys and girls in the armed forces so fervently desire. This is their Christmas gift to all here at home.

This Christmas offers great hope - that this war will soon be finished. That all the boys and girls will soon come home. And those who like to look ahead - should plan and work, this New Year of 1945, to help make things easier and better and more welcome to all those lads and lassies who will soon return home. Post-war planning is an integral part of this Christmas, 1944. Planning that will help all those in the armed services to return to a new and a better life. Yes, this is surely part and parcel of Christmas '44 - a vast, serious part of it.

Most important, this Christmas, is to buy and give War Bonds. Buy and buy and buy. Regardless of what other gift you may have planned - buy an extra War Bond instead - THAT IS A GIFT. Do all and everything you possibly can to help increase the sales of War Bonds. Help with all your might, your intelligence, your faith, your strength - to get more and more War Bonds sold - EVERY DAY.

Yes, Christmas 1944 probably isn't the sort of Christmas we like. It isn't the Christmas of peace and contentment. Something is astir in the minds and hearts of men which upsets all hope of relaxation - of enjoying Christmas - as Christmas should be enjoyed. This is a war Christmas. The best wish we know of at such a time - is to wish us all - PEACE - the peace of Christmas - the peace of a world of great good will and brotherly love - this is the peace we wish this coming year of 1945.

This, then, is Christmas, 1944. A Christmas foisted upon a peaceful people by a howling maniac in Europe - by the warlike monkeymen of Japan - by hatred, by brutality, by murder. This is Christmas, 1944. A war Christmas. A Christmas that should forever be remembered by all who partake of it - for this is the kind of Christmas men should give their all to prevent - in the years to come.

"The Coin Machines Merry-Go-Round"

WILL SPEEDIER TRANSPORTATION CHANGE THIS INDUSTRY'S BUSINESS METHODS?

Many months ago The Cash Box predicted that some years after the war this industry would, by eliminating distances, become an entirely new and different business. The reason for this prediction was due to the fact that various airline, railroad and other transportation executives promised speedier as well as better coverage of this nation after the war.

Now comes the announcement from the Pennsylvania Railroad which has just placed on display in Philadelphia a locomotive that will draw trains at a 100 mile per hour clip. This practically doubles the speed of the average fast trains of today. It means that merchandise will be able to reach those centers this railroad covers within speedier time than ever before in this nation's history. It means that new games will reach distant points on this road, from Chicago's central location, the same day these machines are displayed by the factories.

As The Cash Box predicted at that time, this closing of distances would tend to unify the industry. Coinmen in California and New York will be within just a few hours of each other, according to post-war plane flying time. They will also be within about 24 hours of each other as far as delivery of merchandise is concerned. This would continue to act in the same ratio for closer points. For example, New York and Chicago will be about 3 hours from each other by plane flying time which, with air cargo coming in at as speedy a clip and at low ton per mile rate, would mean that New Yorkers will see new machines the afternoon of the same morning they are shown in Chicago.

There is also no doubt that a great many coin machines firms will purchase their own planes. In days gone by servicing by plane was a great novelty, and always created much publicity for those coinmen who used planes. Many coinmen have been known to fly to Chicago and to New York in their own planes, prior to the war. Others in the trade used planes for service calls over wide areas.

Major Benj. H. Namm, head of the Namm stores, speaking to the New York Board of Trade at the Hotel Astor, a few weeks ago, stressed the fact that rapid air transportation would reduce inventory investment and would also bring about faster turnover of merchandise.

"The airplane", Major Namm stated, "will be a vital factor in bringing merchandise to the people and the people to merchandise. Merchants will have to revise their methods accordingly." He also reported that rates as low as 20 cents per ton mile are being freely predicted and that this should prove a tremendous boon for the export markets.

There will be little or no infringing or shipping into each other's territories by distributors. This is more or less assured because of speedy air cargo delivery of machines. This speedy air cargo delivery gives the operator in the smaller communities of the nation the chance to get the latest machines just as fast as the men in the large, urban centers.

It also means that distributors, regardless of what their size or where they are located, will be working on an equal basis. The distributor will not have to carry large inventory and will be able to turn over merchandise faster than ever before. This more rapid turnover, in conjunction with the fact that less inventory will have to be carried, promises to bring about the creation of an entirely new type of distributor.

There is also no doubt that with the nation a much smaller and more easily flexible unit, because of speedier and greater transportation coverage, many new sales and operating methods will come into vogue in this industry. For example, it might pay the average distributor to purchase his own plane and hire a licensed pilot or pilot the plane himself. The savings will be in the difference between carrying a large stock of machines and supplies on hand as contrasted to the fact that he can get what he wants speedily by plane. At the same time by speedy plane coverage to customers the distributor's turnover is so much faster, and he is therefore in a much more financially liquid position.

The advent of cheap air cargo and speedy railroad transportation promises to have its effect on this industry to such an extent that many changes are likely to occur which can not be clearly foreseen at this time. For example, it is highly probable that within a few years after the war, there may be little or no distribution set-ups as they are known today. Instead, there may be direct coverage thru factory sales factors to the operating front, so that machines reach right to the point of sale

"The Coin Machines Merry-Go-Round"

without any middlemen.

All this is possible. The fact that almost every point in the nation will be quickly reached, because almost every community is planning an airport, means that there will be less work thru middlemen on trade-ins, credits, etc., for by reaching directly to the man doing the operating, and being able to reach him rapidly, there is more intimate contact.

A great many important facts are therefore coming to the fore for the post-war period because of the speed-up sure to result from railroad and airline plans. There is no doubt that if air cargo does come into the post-war picture at about 20¢ per ton mile, coverage of the British and other European and even the Asiatic market will be on a much more economical as well as speedier basis.

This means that exporters will have salesmen flying to London, Paris, Moscow, and probably China and other countries, with as much frequency as they formerly traveled between Chicago and New York. These are facts for the future. Consideration must be given to them by all now engaged in this industry.

Coinmen will surely subscribe to the fact that if they are able to obtain machines just as rapidly along the West Coast as they will be able to in the Midwest, South and on the East Coast - then the former troubles of used machines appearing while new machines haven't yet been seen in one section will be eliminated.

It is a well known fact in the trade that during the pre-war era one of the biggest problems facing a West Coast distributor was to learn that the machines for which he was so eagerly waiting to arrive were, many times, being sold in other parts of the country as "used", while he hasn't as yet even received them. This will most definitely be cured by speedy air and rail transportation, already announced as a surety for post-war.

In short, by drawing the country together into a tighter and closer unit, because of speed transportation, great changes are sure to come about in all merchandising. The merchandising factors in this industry should therefore give much thought to the future. There is no doubt that all business methods will revolutionarily change because of speedier transportation.

ERA OF SPECIALIZATION

An era of specilization in the various types of coin operated equipment is sure to come about in the post-war period, according to leaders in this field.

These men believe that those who have found music most profitable, and most to their liking, will continue exclusively in this field.

This is in keeping with rumors that certain manufacturers have already decided that their distributors are to exclusively handle their merchandise only.

It is a known fact that just before the war the industry was tending to specialization in almost all of its divisions. Cigarette machine men were confining themselves to these machines only. The same was true of beverage venders.

Here and there operations featuring a mixture of machines continued because of location demand. As the years went by, and just prior to the war, more and more men were continuing to sepcialize in certain types of equipment they found most to their liking.

The most highly specialized of all fields today are the music and merchandise machine fields. Here coinmen have confined themselves exclusively to one type of machine and have proven that by such specilization they have been able to make their businesses most successful.

This has had its effect on almost all coinmen thruout the nation during this war-time period. Many are now planning to specialize in just one or two types of machines when the war is over. This is bound to lead to a much more clarified dividing line for all operating. It will be extremely interesting to watch future developments in this direction.

THE TAX BUG BITES AGAIN

TEXAS COINMEN FEAR INCREASED TAXES WHEN STATE LEGISLATURE CONVENES JAN. 1 SAVANNAH COINMEN FIGHTING INCREASES ON PIN GAMES AND MUSIC. APPEAL FOR COUNCIL

NEW YORK—With the first session of the new Texas state legislature to convene on January 1, 1945, coinmen in this state are worried about increased coin machines taxes. Texas has suffered greatly from loss in gas tax revenue, these coinmen write. They believe that not only will this revenue loss have to be made up by the state's legislators, but that because of post-war public works programs now being prepared by the state, that even more tax money will be required.

"And", these coinmen write, "we feel that sure as shooting these legislators are going to come down on our necks." Many coinmen in Texas, they claim, have been sitting back and forgetting all about the fact that their state desperately seeks revenue.

These men, these writers report, will suddenly find themselves facing tremendously increased taxes and will have to rush about in an attempt to cut these down to an equitable basis.

Unless Texas coinmen prepare themselves now, they claim, they are going to face a tremendous amount of worry all at once and will not be in position to take care of the increases that are sure to come into effect.

These men appeal for a National Tax Council and especially for a state tax council of their own to watch out for them. As one noted Texas coinman writes: "Needless to say I have read every word of the several articles you have written regarding the importance of the coin machines industry immediately forming a Public Relations Bureau and National Tax Council.

"I say, 'immediately', for the reason that here in Texas (and I presume in practically every state) a new session of the Legislature will shortly convene, on January 1 to be exact, and as you have warned the trade so often, it is a cinch bet that one of their very first moves will be to place a higher tax on coin machines.

"This is most especially true here in Texas for the reason that the state has suffered much more than most states on the gas situation. Many millions of dollars that formerly came from gas taxes must, of necessity, be made up thru other channels. And what industry is more subject to to taxes than ours?

But the fears of Texas' coinmen regarding the tax bug biting hard in their state are only enhanced by what is already happening in Savannah, Ga., where the tax bug had already taken his first big bite and is now being fought by the coinmen in that city.

The City of Savannah has just increased license fees on pins from $50 to $75 per machine and on phonographs from $10 to $15.

Coinmen in Savannah immediately got together as a group, discussed this new raise in their license, engaged counsel, and the fight is now on.

It is reported that a representative group of operators will probably appear with their attorney before a meeting of the City Council on Wednesday, December 13, 1944, for discussion relative to this tax increase.

Savannah coinmen also urge the creation of a National Tax Council as well as a local state group. They believe that such a Council would now prove of tremendous importance to them in this fight to relieve them from this "first increase" and from possibly "more exorbitant increases later."

Many times The Cash Box has brought home the importance of creating a National Tax Council to the members of this industry. Such a body is invaluable to the trade. When increases in taxes come into being coinmen are horror stricken and have no place to turn to learn what to do.

Only a National Tax Council working with a Public Relations Bureau for this industry, would prove capable of stepping into the fight at such a time, with any possibility of victory.

"DISC-HITS BOX SCORE" CLICKS

NEW YORK—After a great many tests and trials of various record systems, The Cash Box introduced the "Disc-Hits Box Score" to the trade. This was in keeping with the spirit of thoroness which so exemplifies The Cash Box.

"Disc-Hits Box Score" is written for The Cash Box by Jack "One-Spot" Tunnis, famed thruout the recording world for his many record systems and his correct analysis of the leading hit records.

Since its introduction The Cash Box has been in receipt of a great many letters from music machines men telling how the "Disc-Hits Box Score" is helping their record departments.

One coinman even reported, "My music agents wait for The Cash Box to arrive each week and then tear the 'Disc-Hits Box Score' out of the paper and use it as their guide for the week. Whatever you do always arrange this great page so that we can remove it from each issue. It's a peach."

(Any suggestions toward improvement of this page will be accepted with thanks.)

IT'S 'MAJOR' BYRAM, U. S. ARMY, NOW

WASHINGTON — Commissioned a Lieutenant in the U. S. Army Signal Corps in January, 1943, Ira T. Byram, Jr., owner and general manager of Silent Sales System, coin machines distributors, this city, has since stepped up the Army ladder. An announcement from his offices this past week was to the effect that he has just been commissioned a Major.

Major Byram is a native of Washington and was also president of the Metropolitan Realty Company, this city, prior to joining the Army. At the present time, John T. Maclean is taking care of his business interests.

Major Byram sends his best regards to all his old friends in the industry and claims that he is eagerly looking forward to the day when he will be able to renew acquaintances at the first post-war convention.

$5 AD BRINGS ORDER FOR $1,750.00

MINNEAPOLIS — Harold M. Rossow of this city ran a small $5 ad in The Cash Box just a few weeks ago wherein he advised the trade that he had Club Handles at $1.75 each.

A note just received from Rossow reports that one order alone was for 1,000 of these handles.

HURVICH OFFERS PLAN FOR PUBLIC RELATIONS BUREAU

BIRMINGHAM—Max Hurvich of Birmingham Vending Company, this city, proposes that a Public Relations Bureau be created for this industry by adopting a plan whereby the cost for such a bureau would come from machines purchased by the trade. (Tho this plan was proposed by The Cash Box almost two years ago, it is worth repeating at this time.)

Hurvich writes: "As we have written you previously, we compliment you on your pleading for a Public Relations Bureau and a code of ethics. However, we would like to have some concrete suggestions from you as to how to implement such an organization.

"For years we have pleaded the advisibility of getting a 'head man' such as the late Judge Landis or Will Hays. We even suggested on many occasions that the manufacturers charge extra per machine and that this money be used to hire the proper man. We still believe that this would be the best plan for post-war."

THOS. A. EDISON, INC. PATENT RECORD NOT NEEDING SHELLAC

NEW YORK—James W. Nell of Nutley, N. J., has just assigned a patent to Thomas A. Edison, Inc., of West Orange, N. J., wherein no shellac is necessary for its manufacture.

According to the report of the Official Gazette of the U. S. Patent Office: "A record comprising a body portion composed of metallic soap and diluent of soap and having embedded therein a size napped reinforcing material, the sizing of said reinforcing material comprising metallic soap and less diluent than that in the composition of said record body proportion."

Many in the trade are wondering whether the Edison laboratories may be thinking of a return to the record business.

HOT DOG VENDER IS PATENTED

SAN FRANCISCO — Everett P. Ford of this city has just obtained patent number 2,363,724 from the U. S. Patent Office for a "Wiener Vending Machine."

According to the decription this is an automatically operable hot dog sandwich vending machine. It has an electric cooker and can hold a large number of the hot dog sandwiches.

With food vending gaining more attention in the industry there is every possibility that this machine may prove of good importance to coinmen planning to enter this field.

It also proves that inventors in the vending machines field are actively preparing for post-war.

Along with the Stars and Stripes and Minute Man Flag, another proud banner now flies at Jennings — the Army-Navy "E".

In this coveted emblem and in the accomplishments which it signally honors, the men and women of Jennings take a justifiable pride.

Yet, far from resting on these laurels, Jennings is determined to forge still greater war production goals — to stay in this critical fight for freedom until the last threat to permanent peace is stamped out.

And . . .

Because employment and opportunity are two goals for which men are fighting, we will continue the extra efforts necessary in order to be ready for the world of tomorrow.

Merry Christmas

It seems only yesterday that we sat down to wish all of our customers and friends MERRY CHRISTMAS through these very pages just a year ago. Time does fly.

Looking back momentarily over this short span of one year — what momentous events have taken place — what history has been written every hour — every minute — every second.

Our soldier and sailor boys who are fighting so that we might continue to freely and cheerfully say "*Merry Christmas*", are giving their *all* every day — yes, even on Christmas Day the guns keep on their constant dull, destructive booming.

So let us all, here on the home front, do our part, not only with words of cheer, but with our dollars — Buy Bonds! — more Bonds!! — and still more Bonds!!! — in order that we may have our boys back home again with us next year and personally wish them all . . .

Happy New Year

SEASONS GREETINGS

SAY, BROTHER--

WHO IS THIS CHRISTMAS FOR?

Have you overlooked someone this Christmas? Could be. Could be that G. I. crawling through the icy mud somewhere in France. Could be that Leatherneck deep in some South Pacific fox-hole, or that flyer bailing out over nowhere. Could be your brother or your son. Sure, you sent a Christmas box. Sure, you think of him constantly. But...did you buy an extra War Bond for him today? That's what he wants...that's what he needs RIGHT NOW to bring him home safely for next Christmas and all the Christmases to come. It's what you need to insure lasting peace and joyous Christmases here at home. When you buy a Bond for your fighting man's security, you invest in your own future. Yes, this Christmas is for all of US.

MAKE IT A WAR BOND CHRISTMAS!

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
